

Congratulations class of 2023 on the completion of this long and undoubtedly arduous journey. May Allah ﷻ make our education a means of benefit for our ummah at large, from every corner of the world. May Allah ﷻ bless the entire ummah of our Prophet ﷺ, particularly those devastated by the recent earthquakes in Turkey and Syria. May He protect those who are suffering all around the world, from Xinjiang to Palestine and from Canada to right here in South Africa.

With the recent earthquakes, two important lessons ought to be remembered:

1. Your life can change in a split second, there are no guarantees whatsoever. A Turkish citizen said:

*"The landlord raised the rent, and I didn't have an affordable position, so he kicked me out a few days ago. Today, both the landlord and I are in the same tent." The game is a few seconds.*

2. Cherish the blessings and people we have before we lose them. Life is too short to hold grudges against one another. Forgive each other before it is too late.

May Allah ﷻ bless those who have supported us, whether through their time, their money, or their du'as. May Allah ﷻ bless our teachers and their teachers before them and allow us to drink from the hands of our beloved Messenger Muḥammad ﷺ on the day where there is no refuge save from what good we have done and continue to do.

As we embark on our futures, let us not neglect our duties to those around us, Muslim or otherwise. Let us not neglect to maintain the responsibilities which we have engendered as students of knowledge. Finally, let us not neglect to be in constant praise of our Maker ﷻ for all that he has blessed us with. Ameen.
